

CARDIOTHORACIC & VASCULAR SURGERY

Arkansas Heart Hospital's cardiothoracic and vascular surgery department is among the best in the region. More than 60 years of combined, state of the art experience equips our team to perform all kinds of procedures from traditional surgeries to new, groundbreaking therapies.

SERVICES WE OFFER:

- Coronary Artery Bypass Grafting Surgery (CABG)
- Minimally Invasive Cardiac Surgery (MICS CAB)
- Aortic Valve Replacement (AVR)
- Mitral Valve Repair or Replacement (MVR)
- Tricuspid Valve Repair or Replacement (TVR)
- Aortic Aneurysm Repair
- Carotid Endarterectomy (CEA)
- Surgical Ablation (MAZE)
- Convergent – Hybrid Ablation
- Peripheral Interventions and Surgeries
- Trans Carotid Arterial Revascularization (TCAR)

As pioneers of minimally invasive heart surgeries in Arkansas, our physicians improve patient experience by delivering safer, more efficient procedures. These innovative techniques also shorten length of stay, improve recovery times and decrease pain as well as the amount of pain medication needed post-operatively.

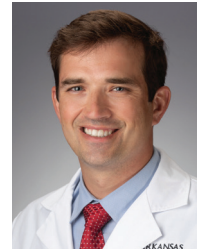

OUR SURGICAL TEAM
