

MEET YOUR PHYSICIAN

KRISTOFER FREELAND MD CARDIOTHORACIC SURGERY

Dr. Freeland is a cardiothoracic and vascular surgeon, pioneering minimally invasive heart procedures across the region. He specializes in coronary vascularization, structural heart procedures including Transcatheter Aortic Valve Replacement (TAVR) and Transcatheter Aortic Valve Replacement (TAVR) and Transcatheter Aortic Valve Replacement (TAVR) as well as minimally invasive surgeries such as minimally invasive coronary artery bypass graft. His approach decreases the risk of complications, shortens hospital stays and allows faster recoveries so his patients can get back to doing what they love.

Dr. Freeland is originally from Fordyce, Arkansas, and attended medical school at the University of Arkansas for Medical Sciences. He completed his general surgery residency at Louisiana State University in Shreveport and cardiothoracic training at the University of Alabama at Birmingham.

In his spare time, Dr. Freeland enjoys hunting, fishing, playing guitar and spending time with his daughters and his wife, a nurse at Arkansas Heart.

DR. FREELAND SPECIALIZES IN CARDIOTHORACIC SURGERY.

Cardiothoracic surgeons specialize in surgical procedures of the heart, lungs and other chest organs to treat heart failure and other diseases. Arkansas Heart Hospital's cardiovascular & thoracic surgery department is world renowned with 75 years of combined state-of-the-art experience. Our experts perform all kinds of procedures, from traditional surgeries to new, groundbreaking therapies.
