

MEET YOUR PHYSICIAN

CARL LEDING MD, FACC **INTERVENTIONAL CARDIOLOGY**

An Arkansas native, Dr. Carl Leding is a specialist in cardiovascular medicine, a fellow of the American College of Cardiology and board certified in cardiology and nuclear cardiology. Dr. Leding provides a full range of cardiovascular services, including CT angiography, echocardiography, nuclear cardiology, coronary and peripheral angiography and intervention.

After graduating from the University of Central Arkansas, he earned his medical degree from the University of Arkansas for Medical Sciences. He then completed his internship and residency in internal medicine at Wilford Hall Medical Center and his fellowship in cardiology at Brooke Army Medical Center. Dr. Leding served his country as a staff cardiologist and flight surgeon in the United States Air Force. He was an aeromedical consultant at Brooks Air Force Base and director of echocardiography, nuclear cardiology and medical flight screening.

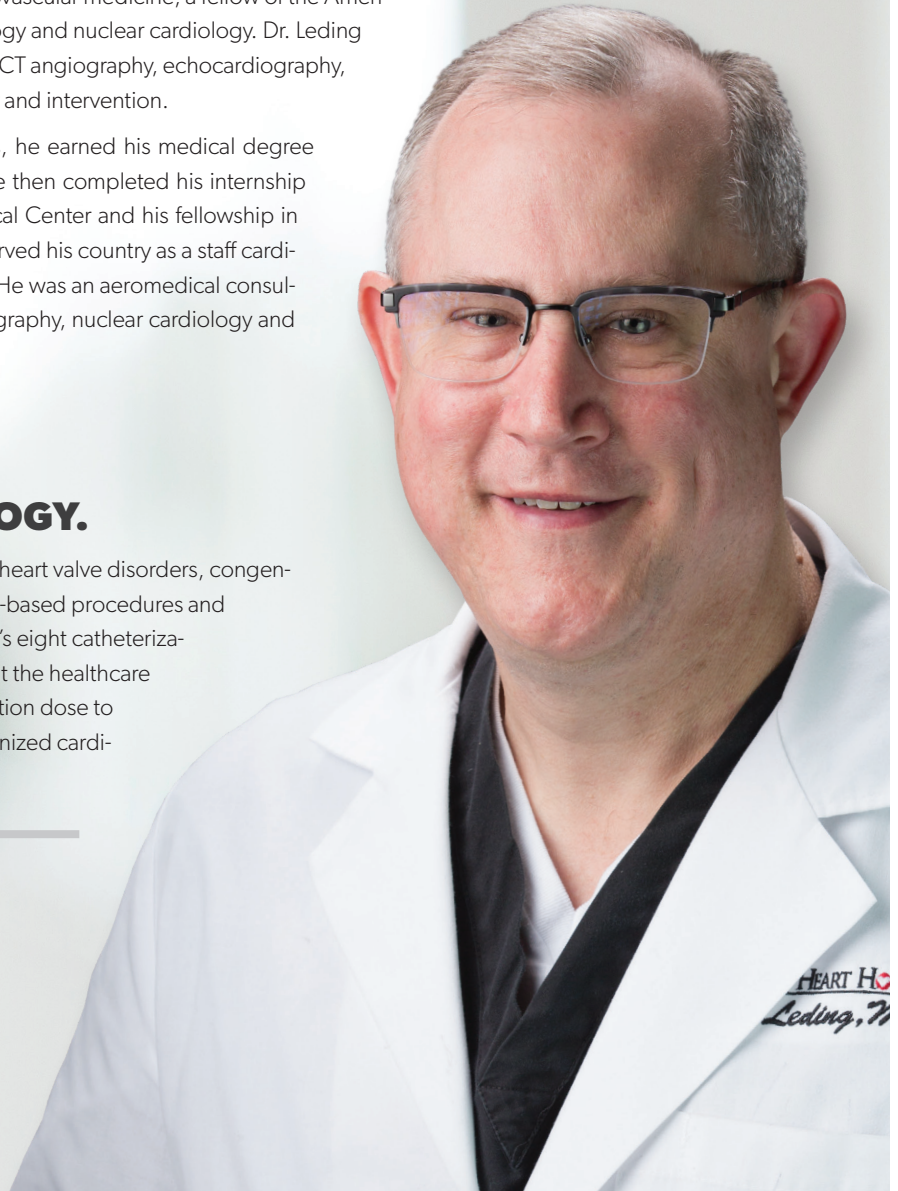

DR. LEDING SPECIALIZES IN INTERVENTIONAL CARDIOLOGY.

Interventional cardiologists treat coronary artery disease, heart valve disorders, congenital heart disease and more through nonsurgical, catheter-based procedures and specialized imaging techniques. Arkansas Heart Hospital's eight catheterization labs feature advanced equipment, known throughout the healthcare industry for outstanding image quality and low x-ray radiation dose to both the patient and staff. The hospital is a globally recognized cardiac training center.
