

MEET YOUR PHYSICIAN

VASIL LENDEL MD, FACC INTERVENTIONAL CARDIOLOGY

Originally from Russia, Dr. Vasili Lendel moved to Nova Scotia in 2000 for a fellowship to study medicine. He completed his residency and cardiology and interventional cardiology fellowships at Milton S. Hershey Medical Center in 2007. He then went into private practice at the Memphis Heart Clinic in Tennessee. Dr. Lendel joined Arkansas Heart Hospital in 2011. Dr. Lendel's accomplishments include many medical and academic distinctions. He has participated in many medical research studies and has spent time volunteering in hospitals and nursing homes. He currently resides in Little Rock with his wife, who is an endocrinologist, and his two daughters. Dr. Lendel's personal interests include music, reading and athletics, especially soccer, hiking, running and fishing.

DR. LENDEL SPECIALIZES IN INTERVENTIONAL CARDIOLOGY.

Interventional cardiologists treat coronary artery disease, heart valve disorders, congenital heart disease and more through nonsurgical, catheter-based procedures and specialized imaging techniques. Arkansas Heart Hospital's eight catheterization labs feature advanced equipment, known throughout the healthcare industry for outstanding image quality and low x-ray radiation dose to both the patient and staff. The hospital is a globally recognized cardiac training center.
