

MEDICAL SERVICES

CARDIOLOGY

Our general cardiologists diagnose and treat patients with a wide variety of suspected and diagnosed heart conditions such as angina, coronary artery disease, heart failure, high blood pressure and more. Our goal is to provide expert care to help patients suffering from heart disease maintain a long and healthy life. With locations across the region, the highest quality of cardiac care is always available and accessible.

STRUCTURAL HEART

Our program offers the newest catheter-based and minimally invasive therapies available in the U.S., as well as cutting-edge devices like the Watchman. We were the first in Arkansas to perform the TAVR and MitraClip® procedures, and to date, we have the most experience in the region. This full group of treatment for structural heart disease is unmatched by any other center in Arkansas.

CARDIOTHORACIC & VASCULAR SURGERY

Arkansas Heart Hospital's surgery department is world renowned with 75 years of combined state-of-the-art experience. Our experts perform all kinds of procedures, from traditional surgeries to new, groundbreaking therapies with an emphasis on minimally invasive surgery.

- FOR MORE INFO** (501) 748-8400
- FAX** (501) 687-8462

INTERVENTIONAL CARDIOLOGY

A globally recognized cardiac training center, our interventional cardiology program treats coronary artery disease, heart valve disorders, congenital heart disease and more through nonsurgical, catheter-based procedures and specialized imaging techniques. Arkansas Heart Hospital's ten catheterization labs feature advanced equipment, known throughout the healthcare industry for outstanding image quality and low x-ray radiation dose to both the patient and staff.

ELECTROPHYSIOLOGY

Combining cardiac expertise with state-of-the-art technology, our team at the Heart Rhythm Institute tracks irregular heartbeats, determines the cause of the issue and gets the heart safely back into normal rhythm. Specializing in complex ablations, our team also performs device implantation, mapping, diagnostic testing, interpretation and more.

CHF RECOVERY

An outpatient program, our CHF recovery clinic offers a healthier, more convenient way to manage heart failure. By equipping patients with knowledge to make necessary lifestyle changes and individualized medical management, we work to minimize acute episodes associated with heart failure and improve overall quality of life for every patient.
