

MEET YOUR PHYSICIAN

NUREDDIN ALMADDAH MD, MS **INTERVENTIONAL CARDIOLOGY**

Dr. Nureddin "Nuri" Almaddah is an interventional cardiologist who is dedicated to treating all forms of cardiac and peripheral artery disease. He is board certified in Internal Medicine, Cardiovascular Disease, Echocardiography, Nuclear Cardiology and Interventional Cardiology. In 2007, he earned a medical degree with honors from the University of Zawia Faculty of Medicine in Libya. Dr. Nuri worked in the largest specialist heart center in Libya, National Heart, in the post-cardiac ICU prior to moving to the US for residency. He completed his residency in internal medicine at Mass General Brigham Salem Hospital in Massachusetts where he served as chief resident. He went on to complete a fellowship in cardiology at The University of Tennessee Health Science Center in Memphis, an interventional cardiology fellowship at University for Medical Sciences at Little Rock, and a Masters in Interventional Cardiology from National University of Ireland. Dr. Nuri enjoys outdoor activities, reading and spending time with his family.

DR. NURI SPECIALIZES IN INTERVENTIONAL CARDIOLOGY.

Interventional cardiologists treat coronary artery disease, heart valve disorders, congenital heart disease and more through nonsurgical, catheter-based procedures and specialized imaging techniques. Arkansas Heart Hospital's eight catheterization labs feature advanced equipment, known throughout the healthcare industry for outstanding image quality and low x-ray radiation dose to both the patient and staff. The hospital is a globally recognized cardiac training center.
