ANDRE PAIXAO MD INTERVENTIONAL CARDIOLOGY

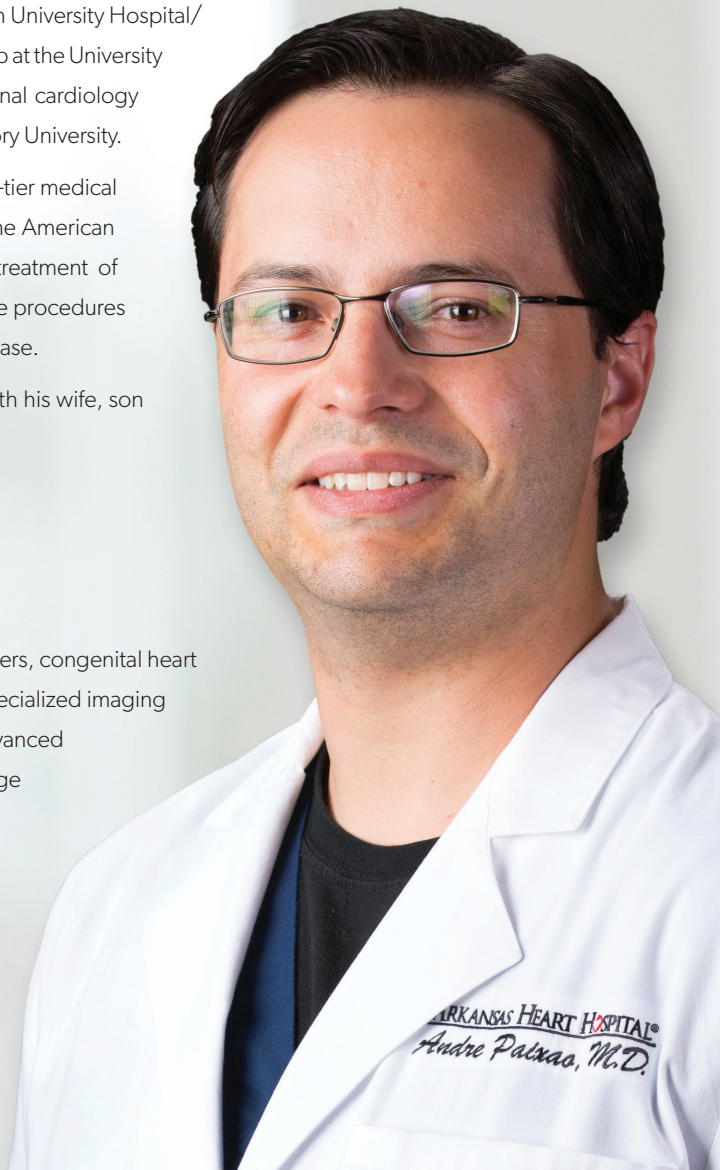

Dr. Andre Paixao is a cardiologist with expertise in preventive and interventional cardiology. Born in Brazil, Dr. Paixao completed his internal medicine residency at Georgetown University Hospital/ Washington Hospital Center, followed by a cardiovascular disease fellowship at the University of Texas Southwestern Medical Center. He went on to pursue interventional cardiology training at the prestigious Andreas Gruentzig Cardiovascular Center at Emory University.

Dr. Paixao is a renowned researcher and has been published in the highest-tier medical journals such as the New England Journal of Medicine and the Journal of the American Medical Association. His areas of interest include the prevention and treatment of cardiovascular disease, and he performs a wide variety of minimally invasive procedures designed to treat arteries in the heart and legs, as well as valvular heart disease.

Dr. Paixao is the proud father of three children and spends his free time with his wife, son and twin daughters.

DR. PAIXAO SPECIALIZES IN INTERVENTIONAL CARDIOLOGY.

Interventional cardiologists treat coronary artery disease, heart valve disorders, congenital heart disease and more through nonsurgical, catheter-based procedures and specialized imaging techniques. Arkansas Heart Hospital's eight catheterization labs feature advanced equipment, known throughout the healthcare industry for outstanding image quality and low x-ray radiation dose to both the patient and staff. The hospital is a globally recognized cardiac training center.
