CRAIG PEARCE MD **INTERVENTIONAL CARDIOLOGY**

Dr. Craig Pearce is an interventional cardiologist specializing in the diagnosis, treatment and management of various heart conditions.

Described as kind and compassionate, Dr. Pearce is excited to join the Arkansas Heart Hospital Texarkana Clinic to provide world-class patient-focused care. He is board-certified in internal medicine, cardiovascular disease, interventional cardiology and nuclear cardiology.

Dr. Pearce obtained his M.D. from Louisiana State University School of Medicine in Shreveport. He continued his post graduate training at the University of South Alabama Medical Center and University of Maryland Medical Center. Dr. Pearce has served as Chief of Staff at Rapides Regional Medical Center and Medical Director at Alexandria Heart & Vascular Center. He is a member of the American College of Cardiology and National Medical Director for National Cardiovascular Partners.

Becoming a physician and helping patients improve their quality of life is a true calling for Dr. Pearce. He has contributed to many medical publications and is committed to providing exceptional and innovative patient care.

DR. PEARCE SPECIALIZES IN INTERVENTIONAL CARDIOLOGY.

Interventional cardiologists treat coronary artery disease, heart valve disorders, congenital heart disease and more through nonsurgical, catheter-based procedures and specialized imaging techniques. Arkansas Heart Hospital's eight catheterization labs feature advanced equipment, known throughout the healthcare industry for outstanding image quality and low x-ray radiation dose to both the patient and staff. The hospital is a globally recognized cardiac training center.
