

MEET YOUR PHYSICIAN

ARMAGHAN SOOMRO MD **INTERVENTIONAL CARDIOLOGY**

Dr. Soomro joined the Interventional Cardiology team after completing his clinical fellowship at UAMS. He earned his medical degree from Dow Medical College and is a graduate of Drexel University's clinical research training program. Dr. Soomro completed an internal medicine residency and cardiology fellowship at Zucker School of Medicine Hofstra/Northwell Health at Staten Island.

Dr. Soomro is passionate about treating all forms of cardiac and peripheral artery disease. He seeks to be a trusted advocate for his patients in returning them to a thriving, healthy life with their friends and family. Outside of work, Dr. Soomro enjoys reading, traveling and spending time with his wife and daughter.

DR. SOOMRO SPECIALIZES IN INTERVENTIONAL CARDIOLOGY.

Interventional cardiologists treat coronary artery disease, heart valve disorders, congenital heart disease and more through nonsurgical, catheter-based procedures and specialized imaging techniques. Arkansas Heart Hospital's eight catheterization labs feature advanced equipment, known throughout the healthcare industry for outstanding image quality and low x-ray radiation dose to both the patient and staff. The hospital is a globally recognized cardiac training center.
